## **DETAILED ACTION**

### ***Election/Restrictions***

I. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group 1. Claims 1-6, are drawn to a method of lysing malignant cells in a mammal using an antibody to the IL-2 receptor, classified in Class 424, subclass 143.1.

Group 2. Claims 1-5, 7, are drawn to a method of lysing malignant cells in a mammal using IL-2 linked to a cytotoxin, classified in Class 424, subclass 85.2.

Group 3. Claims 8-10, 11-13, are drawn to a method of inhibiting the T-lymphocyte-induced rejection of an allograft in a mammal by administering an antibody to the IL-2 receptor, classified in Class 424, subclass 143.1.

Group 4. Claims 8-10, 14, are drawn to a method of inhibiting the T-lymphocyte-induced rejection of an allograft in a mammal by administering IL-2 linked to a cytotoxin, classified in Class 424, subclass 85.2.

Group 5. Claim 15, is drawn to a method of treating a patient with acute autoimmune disease by administering a substance having specific affinity for IL-2 receptors, Class and subclass undeterminable.

The inventions are distinct, each from the other because of the following reasons:

Inventions 1-5 are independent and distinct, each from the other, because the methods are practiced with materially different process steps for materially different purposes and each method requires a non-coextensive search because of different starting materials, process steps and goals.

Art Unit: 1646

Having shown that these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their recognized divergent subject matter as defined by MPEP § 808.02, the Examiner has *prima facie* shown a serious burden of search (see MPEP § 803). Therefore, an initial requirement of restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 C.F.R. 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
